MARDEN'S JUNIOR TRAINING 2010

The Marden's Junior Training again took place over the first week of the Easter holidays. As ever there were a few new faces and it was very nice to welcome the Brooksbanks, Wheelers, Campbells, Repards and Broungers, and in total we had 60 trainees. It was also a year to say farewell, as Ali Oakes who has been hugely involved with the Junior Training since we reintroduced it in 2005 announced that this would be his last year. Ali's contribution has been massive both in the planning of the training weeks and in ensuring their smooth running on the mountain. His enthusiasm and effort will be much missed next year and I am sure I speak for all Junior Trainees and their parents in thanking him for the dedication and sacrifice that he has given into making these weeks the fun that they are.

The first day of training was on the Madrisa and in spite of a weather forecast heralding improving conditions we were engulfed in cloud and snow for the whole day. This did give the trainees a chance to practice a few off piste turns, with many of them enjoying the challenge, but training through gates could not really start until the sun came out on the Tuesday.

With the Madrisa now closed for the remainder of the season we spent the rest of the week on the Gotschna, and we had glorious weather throughout. On the Tuesday we set up a course on the Mahder and everyone got a chance to go through the gates. However, given the soft conditions due to the recent snow we were only able to do half the morning before the course had deteriorated too much. We had lunch at the Alte Schwendi and Clair Southwell had worked wonders in ensuring that Davos Klosters Mountains had prepared the piste, otherwise it could have been a bit of a struggle!

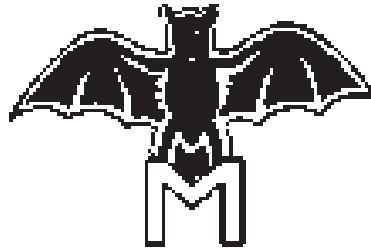

On the Wednesday we were again on the Mahder and held a team parallel slalom, an event which now seems to have become an annual fixture. Eight teams of seven battled it out in what proved an extremely competitive race. It is always fascinating to see how much better the children ski when they can see the person they are racing against skiing alongside! We also instigated a new competition whereby all the children had to predict how fast they would clock on the speed gun on the Dorftali. A lot of science went into some of the predictions with the more astute trying to find out from their trainers at exactly what time they were likely to be doing it and whether the course would be running fast or slow! Perhaps science is Serena Lloyd's strong point as she got her prediction spot on!

The Thursday saw a break from the gates and the trainees took the opportunity to brush up on some technique, as well as unwind down the ever popular Totalp ski cross course. Finally the week finished up on the Friday with a GS on the Dorftali. As ever this was keenly fought and it was very pleasing to see so many parents and other adult entrants take part. The prize giving was held at the Sports Centre where the new range of Beanie hats and bendy clocks proved the most keenly sought after trophies.

The week as always was over far too quickly. Nonetheless it was packed with plenty of laughs, friendly competitiveness and lots of good memories. I hope that I will see many of the trainees back on the slopes with us again next Easter.
